Council resolved itself into a committee of the whole, Mr. Leeder moved that the committee of the whole rise and report the evidence. The motion was carried and the clerk read the evidence, which was accepted and the committee was discharged. On motion of Mr. Behm the argument of counsel was then taken, each counsel to be limited to 30 minutes. Col. Smythe, counsel for the defense said he did not wish to argue the case, he thought they were an intelligent body of men and he thought it was entirely a matter for the council to decide. He therefore made no argument. Hon. Charles Ogden made a very able address in the course of which he said he thought they had made out a very clear case against the marchal and his deputy. We had the evidence of Mr. Shears and others besides several councilmen and policemen to support the charges and specifications, while the principal evidence in defence came from the marshal himself. Mr. Shears testified to the obscene language that was used in a house in the neighborhood of the Milldrd, and the disturbances created surprised to see the place brilliantly in regard to the marshal's duty as to no argument at all.
